CREATE A
SPECIAL PLACE

Delta
Interactives

What is your fondest *childhood* memory of playing?

Perhaps a smile appears when you remember the carefree feeling of being a child: playing, laughing, creativity, self-confidence and openness.

While playing, millions of brain connections are formed that lay the foundation for the rest of life.

That is why it is our mission to work with you worldwide to create environments where children can truly be themselves.

Hours of playtime, compact designs

BUILT-IN GAMES FOR ALL

Our multifunctional, interactive systems are the easy solution to keep children happy and entertained for a long time. Our clean designs fit well in any space, are durable, and are easy to maintain.

CUSTOM PLAY EXPERIENCE

For a complete brand experience, our IKC developers can customise the game software to match your corporate style!

Activity Module

The Activity Module is an interactive game that gives you 30 seconds to press a light-up button as quick as possible. Afterwards, the counter indicates the total number of points achieved. This way, children can play with each other, but also break their personal records. The game can be easily and securely attached to a wall in any room.

Activity Wall

This interactive wall game challenges two players, team green and team blue, to a competition against each other to push as many buttons as possible within one minute. In total there are 8 or 16 buttons spread across the wall, which will randomly light up in a green or blue colour. Each player should find and press the buttons in their own colour to score points. The final scores are kept on the included scoreboard.

USP 's

Plug & Play Our team of developers ensures that the software is correctly installed and tested on your interactive play system. All you have to do is plug it in, and the play system is ready for use!

Vandalism-proof The glass in our screens is tempered glass, making our interactive play systems safe, durable and vandalism-proof.

Multiple touchpoints All of our touchscreens have 10+ touch points, enabling up to four children to play together at the same time.

Easy to clean The flat, rimless display surface eliminates issue with dust and debris build-up in the corners around the screen.

No violence Our software contains no violence, so children of all ages can safely play and enjoy all games.

No language We never include any language, words or texts in our software, so all children can understand the games, even in other countries.

24/7 playtime Our interactive play systems are made for 24/7 use. You can also choose to turn the power off, or connect it directly to your main power source.

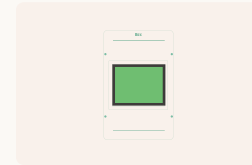

No extra costs Our softwares and interactive systems do not have monthly subscription plans or additional costs after purchase.

Cleaning guide

Interactive

Important! These instructions are only for cleaning the screens of our interactive play systems. Do NOT use these instructions to clean the cabinet around the screen. Failure to observe this instruction can cause material damage which may impair the functionality of the device.

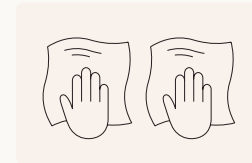

When cleaning the interactive screen, please make sure to only touch the screen, not the cabinet around the screen.

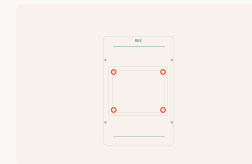

Always use screen wipes with alcohol.

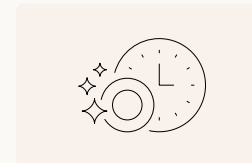

Important! Never use sprays or soapy water for the screen.

Use 2 different wipes to ensure that dirt and bacteria are fully removed.

Check if the corners of the screen are clean as well. Dirty corners and edges may negatively influence the screen's functionality. Use a corner of an alcohol wipe or cotton swab to clean the edges and corners.

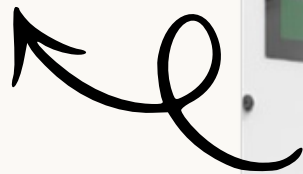

Aim to clean the screen every day for best results and for prevention against bacteria.

Custom Softwares

Our own team of IKC developers creates adventurous, challenging and educative games that can be enjoyed by children from all ages, from all over the world.

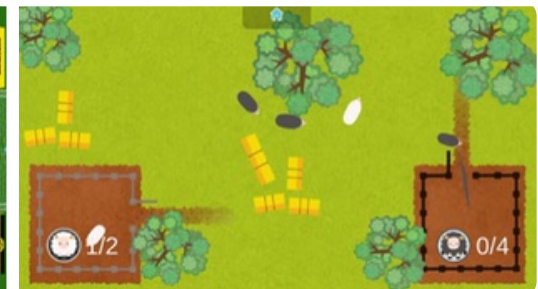

Because we create everything ourselves, we can easily customize our software to best match your corporate identity and other preferences!

Your own logo
in the software!

Custom softwares

Examples

Software

Arctic Adventures

Arctic Adventures is part of our IKC Arctic collection. It contains 14 games that take place outside in a natural setting with cool, neutral colours.

The overall theme is 'save the planet', teaching children to become environmentally conscious in a playful way.

The games are aimed toward children from 4 to 8+ years old, and don't contain any violence or language, making it enjoyable for kids of all backgrounds.

Software

Supermarket

Our Supermarket software contains 11 interactive games with relevant themes such as farming and where food comes from, fresh produce, life as a family, and being environmentally conscious.

This software is aimed towards children between the ages of 4 and 8 years old.

Software

Galaxy explorers

The Galaxy Explorers software is part of our IKC Monster collection. Its 9 interactive games take place within the fantasy monster universe!

Children will learn to help the monsters to solve puzzles, keep the universe clean, and repair space vehicles.

The games are aimed toward children from 4 to 8+ years old, and don't contain any violence or language, making it suitable for children of all backgrounds.

Software

Game train

The Game Train travels all around the world, and rewards children at the end of each level, stimulating their self-confidence.

Players can build, solve puzzles, spot the differences, draw, and more. Each game contains multiple levels so kids are constantly being challenged!

The games are designed for kids from 4 to 8+ years old.

Software

Touch table

The Touchtable software is specially designed for the 32 inch and 43 inch Touchtable, and allows up to 4 children to play around the table at the same time.

Together, kids can do fun activities like play sports, eat sushi, catch fish, and more! The games do not contain any violence or language, making them suitable for all children.

Software

Steering wheel

The Delta 21 Steering Wheel 8+ contains three built-in 3D games that are educational and challenging for kids from 8+ years old.

The games can be selected and played by turning the wheel, instead of using a touchscreen or buttons. This unique play system is a true eye-catcher for your business!
