CREATE A SPECIAL PLACE

Healthcare

What is your fondest *childhood* memory of playing?

Perhaps a smile appears when you remember the carefree feeling of being a child: playing, laughing, creativity, self-confidence and openness.

While playing, millions of brain connections are formed that lay the foundation for the rest of life.

That is why it is our mission to work with you worldwide to create environments where children can truly be themselves.

Our DNA

At IKC, we develop safe, imaginative and sustainable play solutions that allow children to play freely, explore and be themselves.

With over 20 years of experience, we combine creative design, play research and high-quality production in our own factory to create unique play concepts for every space and every budget.

By supporting children's development through play, we are investing in a better future for everyone.

The *Power* of IKC

1

Innovative play concepts

- Our analogue and digital games offer a unique gaming experience that continues to challenge and inspire children.
- Each concept can be customised to fully match your brand identity, target group, and available space.

2

Quality under our own management

- From design to production: every component is developed, tested and checked by our team.
- Thanks to our own factory and craftsmanship, we guarantee consistent quality and products that will last for years.

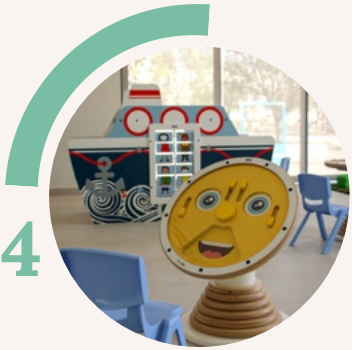
Trusted by brands worldwide

Carrefour

3

Sustainable and safe

- We manufacture using FSC-certified wood and low-maintenance materials, designed for longevity and minimal environmental impact.
- Every design meets the highest safety standards. Certified according to EN-71 safety requirements.



4

Global service & peace of mind

- From our offices in the Netherlands, Germany and China, we work together with partners worldwide.
- From the initial design to the final finish, you can count on us.

Our products are SGS certified according to EN-71, which guarantees safety for children worldwide.

SGS

All our products are inspected, tested and certified by SGS Laboratories.

EN 71

European standard EN 71 specifies safety requirements for toys. Compliance with the standard is legal- ly required for all toys sold in the European Union.

FSC

All our products only use FSC certified wood, so eco- and environment friendly

CE

Our products are conform with health, safety and environmental protection standards for products sold within the EU.

The business *effect* of a playcorner

Calm

Patients and caregivers can only truly settle when children are occupied safely and happily. A dedicated play corner reduces stress and noise in the waiting area, creating a calmer atmosphere for everyone, including staff.

Flow

Waiting times can be challenging, especially for families. A play corner helps children stay engaged, which means fewer disruptions, fewer distressed moments, and a smoother waiting-room flow. That makes the overall experience more manageable.

Trust

A positive waiting-room experience builds confidence. When children feel comfortable and caregivers feel supported, the visit starts on a better note reducing anxiety and improving cooperation. It's a small detail that strengthens trust in your care environment.

Professional

A well-designed play corner signals that you've thought about the full patient journey. It supports a welcoming, child-friendly image while fitting a clinical setting through durable, easy-to-clean materials and a safe, orderly design.

Experiences that speak for themselves

“Our doctors see every day that children are more relaxed when they enter the consultation room, which makes making appointments easier.”

Maasstad hospital Rotterdam
Facility manager

“There is a relaxed atmosphere; parents enjoy a cup of coffee while the children are playing in the play corner. This makes waiting less unpleasant.”

Zuyderland hospital Maasstricht
Oncoloy sector

“De meerwaarde van IKC zit niet alleen in het product, maar vooral in de begeleiding. Onze contactpersoon dacht actief mee over inrichting, doelgroep en praktische randvoorwaarden.

Jolanda
Antonius Ziekenhuis Sneek

“During busy weekends, the play corner truly makes a difference. Children have something to focus on, which helps keep the atmosphere in the waiting room calmer. Clock Around is without a doubt the favourite.”

Our collections

Arctic

Inspired by the silence and purity of the north, the Arctic collection exudes Scandinavian design: fresh, modern and natural. Soft colours, light wood accents and minimalist shapes bring balance and tranquillity to any space.

Delta

The Delta collection revolves around modern gaming experiences and smart interaction. The sleek designs and user-friendly layout give any space a contemporary look. All digital games and software are developed by our own team, ensuring that each game perfectly matches the experience you want to create.

Classic

The Classic collection stands for familiar shapes, recognisable frames and cheerful IKC colours. Timeless in design and loved worldwide. Classic brings back the pure feeling of play, in a way that connects generations.

Buxus

The Buxus collection combines modern minimalism with the warmth of wood, recognisable by its refined wooden joints. With soft shapes and an ergonomic design that ensures a comfortable sitting position, Buxus brings style and functionality together in timeless children's furniture.

Desert

The Desert collection takes children on an adventure between sand dunes and hidden oases. Inspired by the mysterious charm of desert stories, this line combines warm earth tones with natural shapes and subtle details that stimulate imagination and discovery.

From idea to realisation: your customised project

1. Inventory

We listen to your wishes and contribute with ideas about the desired experience and use of the space. Together, we bring your vision to life and explore the options that best suit your location.

2. Customised design

Our designers translate your ideas into a safe, attractive and functional design that suits your brand and space. You will receive visuals for approval, so you can see exactly what the play corner will look like.

3. Own production

All play elements are manufactured in our own factory. We use sustainable materials and carry out strict quality controls. This means you are assured of a durable product that will last for years without any worries.

4. Professional installation
Our professionals ensure quick and hassle-free installation, exactly as planned.
We take care of every detail, so you can enjoy a perfect end result without any worries.

5. Maintenance & service
We remain involved even after installation.
With a warranty of no less than 2 years.

Did you know that...

Our play concepts bring daily enjoyment to children in over 75 countries worldwide.

Favourites in healthcare

1

Delta 17-inch Interactive

Our popular interactive play system can be found in thousands of locations worldwide. Available in white or blue as standard and easy to mount on the wall, on a play fence or play system.

2

Safari Jeep

The Safari Jeep play system is a play element in the shape of a Jeep, featuring one wheel-mounted wall game. It also features a world map on the hood of the jeep with buttons attached to it so childeren can go on a safari on the hood of the jeep.

3

Animal Fusion

A wall game in which children match animals by turning the illustrated cubes. The rectangular game has a modern birch wood frame with a white front and fits into almost any space.

4

Shocking Spiral

This interactive wall game introduces children to the effects of electrical conductivity in a playful and safe way. At the same time, it offers an entertaining challenge and promotes hand-eye coordination. The game is designed for children, teenagers and adults.

5

Delta 21 Steering Wheel 8+

Delta 21 Steering Wheel 8+ is an interactive play system with a 21" touchscreen and a steering wheel. Wall or fence mountable, vandal-proof and a real eye-catcher. For children aged 8 and up, energy efficient and good for puzzles, creativity and logical thinking.

6

Softplay Cherry

Softplay Cherry is a handmade soft play element. Softplay Cherry is a cherry and can be used to sit on, climb on or play with. It can easily be combined with the IKC wall modules.

Play@IKC

Play@IKC is a modular play system that transforms any space into a world of fun and games. The flexible 1x1 and 1x1.20 metre blocks are easy to combine into three layers and fit perfectly into any space and desired play value.

Playing with perception

Play@IKC transforms any space into a world of play, discovery and fun. The play areas are fully tailored to your brand and interior design. This creates an inviting place where children can enjoy themselves and parents can relax and shop.

Quality that lasts

The modular system is made of sturdy, low-maintenance materials. It can withstand daily use. A sustainable solution that will provide years of enjoyment and contribute to a positive shopping experience for the whole family.
