CREATE A SPECIAL PLACE

Project Designers

What is your fondest *childhood* memory of playing?

Perhaps a smile appears when you remember the carefree feeling of being a child: playing, laughing, creativity, self-confidence and openness.

While playing, millions of brain connections are formed that lay the foundation for the rest of life.

That is why it is our mission to work with you worldwide to create environments where children can truly be themselves.

Our DNA

At IKC, we develop safe, imaginative and sustainable play solutions that allow children to play freely, explore and be themselves.

With over 20 years of experience, we combine creative design, play research and high-quality production in our own factory to create unique play concepts for every space and every budget.

By supporting children's development through play, we are investing in a better future for everyone.

The *Power* of IKC

1

Innovative play concepts

- Our analogue and digital games offer a unique gaming experience that continues to challenge and inspire children.
- Each concept can be customised to fully match your brand identity, target group, and available space.

2

Quality under our own management

- From design to production: every component is developed, tested and checked by our team.
- Thanks to our own factory and craftsmanship, we guarantee consistent quality and products that will last for years.

Trusted by brands worldwide

Carrefour

3

Sustainable and safe

- We manufacture using FSC-certified wood and low-maintenance materials, designed for longevity and minimal environmental impact.
- Every design meets the highest safety standards. Certified according to EN-71 safety requirements.

4

Global service & peace of mind

- From our offices in the Netherlands, Germany and China, we work together with partners worldwide.
- From the initial design to the final finish, you can count on us.

Our products are SGS certified according to EN-71, which guarantees safety for children worldwide.

SGS

All our products are inspected, tested and certified by SGS Laboratories.

EN 71

European standard EN 71 specifies safety requirements for toys. Compliance with the standard is legal- ly required for all toys sold in the European Union.

FSC

All our products only use FSC certified wood, so eco- and environment friendly

CE

Our products are conform with health, safety and environmental protection standards for products sold within the EU.

The business *effect* of a playcorner

Integration

Play value becomes an integral part of your overall concept, not a separate addition. The play corner seamlessly aligns with your design style and routing. This strengthens cohesion within the interior.

Return on Investment

An integrated play corner increases dwell time and enhances customer satisfaction. This translates into higher revenue per square meter. Your design delivers measurable commercial value.

Positioning

You don't just advise on interior design, but on user behavior and experience. This strengthens your strategic role towards clients. You clearly differentiate yourself from other project designers.

Efficiency

With ready-to-use 3D models and modular solutions, you design faster and smarter. No disruption to your planning, but maximum flexibility. This allows you to stay in control of both design and execution.

Experiences that speak for themselves

"Everything went smoothly: collaboration, communication, and coordination. The quotation was clear. The play corner was part of a swimming pool project of ours. Yes, I would definitely recommend IKC."

Visual Merchandiser, Borussia Dortmund

"The play corner offers a great solution for parents who want to shop in peace."

Interior Manager, H&M

"Children are very important here! We also try to help parents relax during their visit to our hospitality area. The design fits perfectly within the concept and I am still very satisfied with it."

Yentl Peelman, Cantina Aqua

"The collaboration went smoothly: clear communication, pleasant contact, and a transparent quotation. The play corner was installed in a swimming pool as part of one of our projects. We highly recommend IKC."

Our collections

Arctic

Inspired by the silence and purity of the north, the Arctic collection exudes Scandinavian design: fresh, modern and natural. Soft colours, light wood accents and minimalist shapes bring balance and tranquillity to any space.

Delta

The Delta collection revolves around modern gaming experiences and smart interaction. The sleek designs and user-friendly layout give any space a contemporary look. All digital games and software are developed by our own team, ensuring that each game perfectly matches the experience you want to create.

Classic

The Classic collection stands for familiar shapes, recognisable frames and cheerful IKC colours. Timeless in design and loved worldwide. Classic brings back the pure feeling of play, in a way that connects generations.

Buxus

The Buxus collection combines modern minimalism with the warmth of wood, recognisable by its refined wooden joints. With soft shapes and an ergonomic design that ensures a comfortable sitting position, Buxus brings style and functionality together in timeless children's furniture.

Desert

The Desert collection takes children on an adventure between sand dunes and hidden oases. Inspired by the mysterious charm of desert stories, this line combines warm earth tones with natural shapes and subtle details that stimulate imagination and discovery.

From idea to realisation: your customised project

1. Alignment

We start with your design vision, planning, and requirements. Together, we define the desired experience, target audience, and position within the overall concept. This ensures that play value and design align seamlessly from the very beginning.

2. Integration into your design

You receive ready-to-use 3D models and product specifications to integrate directly into your designs. Our designers support you with material choices, dimensions, and layout. This way, you stay in control of the look & feel, while we safeguard the play functionality.

3. Production & quality

After approval, we produce all play elements in our own factory. Using durable materials and strict quality controls, we guarantee a safe, professional solution for intensive use. You get a result that fits your concept and lasts for years.

4. Professional installation

Our specialists ensure a fast and hassle-free installation, exactly as planned.
We take care of every detail, so you can enjoy a perfect end result without concerns.

5. Maintenance & service

We remain involved even after installation.
Including a warranty of no less than 2 years.

Did you know that...

Our play concepts bring daily enjoyment to children in over 75 countries worldwide.

Favorites for project designers

1

Delta 17 inch Interactive

Our popular interactive play system can be found in thousands of locations worldwide. Available as standard in white or blue and easy to mount on a wall, play fence, or play system.

2

Durable Vinyl Flooring

Strong flooring that can be printed with any desired design. Wear-resistant, colorfast, and perfect for intensive use.

3

Dune Trail

Dune Trail is a freestanding desert-themed play module with movable knobs that allow children to guide their safari vehicle along paths, hills, and tunnels. Compact, interactive, and perfect for stimulating imagination.

4

Shocking Spiral

This interactive wall game introduces children to the effects of electrical conductivity in a playful and safe way. At the same time, it offers a fun challenge and stimulates hand-eye coordination. Suitable for children, teenagers, and adults.

5

Delta 32 inch Touchtable

Thanks to its shape and multiple touchpoints, up to four children can play together simultaneously. IKC Studio has developed special software for ages 6 to 13+ that supports their learning and development needs.

6

Softplay Birch

Softplay Birch is a sturdy and durable soft play element in the shape of a tree. A versatile addition to any play corner: for sitting, climbing, or free play.

Play@IKC

Play@IKC is a modular play system that transforms any space into a world of fun and games. The flexible 1x1 and 1x1.20 metre blocks are easy to combine into three layers and fit perfectly into any space and desired play value.

Playing with perception

Play@IKC transforms any space into a world of play, discovery and fun. The play areas are fully tailored to your brand and interior design. This creates an inviting place where children can enjoy themselves and parents can relax and shop.

Quality that lasts

The modular system is made of sturdy, low-maintenance materials. It can withstand daily use. A sustainable solution that will provide years of enjoyment and contribute to a positive shopping experience for the whole family.
